## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "forward section and a rear section detachably connected together" (claim 6) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6, 8-10, 16, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Dickason et al (U.S. # 4,281,728). The front & rear load cell trays are bolted to the front & rear end ramps, respectably, and are part of the ramp (Col. 6, lines 39-54). There is also a stop means (70,71) which protrude into the trough (34,35) of each ramp (Col. 5, line 65 to col. 6, line 4).

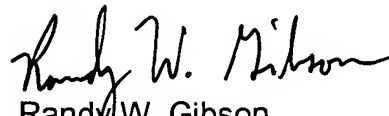

**Conclusion**

4. Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 11-15 are allowable over the art of record.
